**Proposed Amendment of Class E Airspace; DuBois, PA**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to amend Class E surface airspace and Class E airspace extending upward from 700 feet above the surface in DuBois, PA, due to the decommissioning of the Clarion VORTAC and cancellation of the associated approach at DuBois Regional Airport. This action would also update the name of the airport, as well as the name and geographic coordinates of Penn Highlands Healthcare-DuBois Heliport. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing

regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class E airspace at DuBois Regional Airport, DuBois, PA, to support IFR operations in the area.

### **Availability and Summary of Documents for Incorporation by Reference**

This document proposes to amend FAA Order 7400.11E, Airspace Designations, and Reporting Points, dated July 21, 2020, and effective

September 15, 2020. FAA Order 7400.11E is publicly available, as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### **The Proposal**

The FAA proposes an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to amend Class E surface airspace and Class E airspace extending upward from 700 feet above the surface at DuBois Regional Airport (previously Du Bois-Jefferson County Airport), DuBois, PA, due to the decommissioning of the Clarion VORTAC and cancellation of the associated approach. In addition, the FAA proposes to update the airport's name and the name and geographic coordinates of Penn Highland Healthcare-DuBois Heliport (previously Du Bois Regional Medical Center) to coincide with the FAA's aeronautical database.

Class E airspace designations are published in Paragraphs 6002 and 6005, respectively, of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

### **Regulatory Notices and Analyses**

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine

amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and, (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
